## **DETAILED ACTION**

### ***Election/Restrictions***

1. Claims 1-35 appear to be generic to a plurality of disclosed patentably distinct species comprising:

Species A directed to Figure 4;

Species B directed to Figure 5;

Species C directed to Figure 6;

Species D directed to Figure 7;

Species E directed to Figures 8-10;

Species F directed to Figures 11, 12, and 14;

Species G directed to Figures 11 and 13;

Species H directed to Figure 15;

Species I directed to Figure 16;

Species J directed to Figure 17; and

Species K directed to Figure 18.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. A telephone call was made to Peter Stomma on Friday, February 25, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hilary Gutman whose telephone number is 703-305-0496.
